

MD. ISMAIL HOSSAIN TUSHER

Full-Stack Software Engineer | Java • Spring Boot • Vue.js • Angular

Dhaka, Bangladesh | +880 1754 343120 | tusher66@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio site](#)

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 4 years of experience building scalable web applications using Java Spring Boot on the backend and Vue.js/Angular on the frontend. Proven track record leading frontend teams across 10+ production projects for government and international clients. Experienced in REST API development, microservices, responsive and SEO-friendly web applications, Figma-to-code implementation, real-time communication with WebSocket, database integration, reporting, and production delivery.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript

Frontend: Vue.js 3 (Composition API, Options API), Nuxt.js, Angular, Thymeleaf

Backend: Spring Boot, Spring MVC, Microservices, REST APIs

Styling: Tailwind CSS, Bootstrap, Material UI, Shadcn UI

Databases: MySQL, PostgreSQL, Oracle SQL

State Management: Pinia, Vuex

Tools & Others: Docker, Git, GitHub, GitLab, SVN, Postman, Jasper Reports, WebSocket, MinIO, Redis, Server Deployment

PROFESSIONAL EXPERIENCE

Software Engineer — Computer Network Systems (CNS) Limited | Nov 2022 – Present

Dhaka, Bangladesh | Java, Spring Boot, Vue.js, Angular, Docker, Full Stack

- Designed, developed, and maintained scalable backend systems using Java Spring Boot supporting applications with millions of end users.
- Built and optimized RESTful APIs with a focus on performance, security, reliability, and maintainability across production applications.
- Contributed to system architecture decisions and backend/frontend integration for systems designed to scale with growing user bases.
- Developed dynamic, responsive interfaces using Vue.js, Nuxt.js, and Angular, including Figma-to-code implementation.
- Led frontend development teams as Team Lead on 6+ client projects, coordinating implementation from design through deployment.

Junior Frontend Developer — Jobdesk | Mar 2022 – Oct 2022

Dhaka, Bangladesh | Angular, TypeScript, ASP.NET Core, MySQL

- Developed responsive Angular interfaces for a Swiss recruitment and staffing platform.
- Integrated Angular frontend components with REST APIs and backend services to support recruitment workflows and job-search functionality.
- Built reusable TypeScript/Angular components with attention to responsive design and maintainable frontend architecture.

EDUCATION

B.Sc. in Information and Communication Engineering — Bangladesh Army University of Engineering and Technology (BAUET), Qadirabad Cantonment, Natore | CGPA: 3.54/4.00

Higher Secondary Certificate — Govt. Shahid BulBul College, Pabna

KEY PROJECTS

RAISE ERP — Wage Earners' Welfare Board (WEWB)

Team Lead | Vue.js 3, Spring Boot, WebSocket, Tailwind CSS

- Led frontend development for a 13-module ERP/public-service platform supporting expatriate workers, internal employees, and administrative users.
- Developed responsive, role-based interfaces and integrated Vue.js 3 applications with Spring Boot REST APIs and WebSocket-based real-time communication.
- Collaborated with backend and business teams to implement workflow-driven modules and deliver production-ready features.

CMS Platform — Sadharan Bima Corporation (SBC) & Insurance Development and Regulatory Authority (IDRA)

Team Lead | Nuxt.js, Vue.js 3, Spring Boot, Tailwind CSS

- Led frontend delivery of SEO-friendly, mobile-responsive public portals and administrative CMS interfaces.
- Built reusable content-management components and integrated Nuxt.js/Vue 3 applications with Spring Boot REST APIs.
- Focused on maintainable frontend architecture, responsive UX, performance, and search-engine visibility.

Automated Vehicle Inspection System (AVIS) — BRTA

Full-Stack Developer | Spring Boot, Vue.js 2, Oracle, Jasper Reports

- Developed modules for automated and manual vehicle inspection, robotic-device-driven inspection workflows, inspection booking, and certificate/report generation.
- Built Spring Boot services and integrated inspection workflows with Oracle and Jasper Reports.
- Developed Vue.js interfaces for inspection operators and administrative workflows.

Collection of Motor Vehicle Tax (MVTAX) — BRTA

Full-Stack Developer | Spring Boot, Angular, Oracle, Jasper Reports

- Developed online motor vehicle tax collection, payment, and bill-generation workflows.
- Implemented Angular interfaces and integrated them with Spring Boot REST APIs and Oracle databases.
- Developed report and bill-generation functionality using Jasper Reports.

BRTA Service Portal (BSP) — Bangladesh Road Transport Authority

Full-Stack Developer | Spring MVC, JSP, Java, Jasper Reports

- Contributed to a citizen-facing online service platform covering learner driving license, smart-card driving license, license renewal, duplicate license, and related driver/vehicle services.
- Worked on online fee/payment-related workflows, fee calculation, payment verification, service verification, and driving-test result functionality.
- Developed server-side functionality using Spring MVC/JSP and integrated reporting/document-generation features with Jasper Reports.

Sima Acan Portfolio — Canada

Team Lead | Vue.js 3, Composition API, Pinia, Tailwind CSS, Spring Boot

- Led development of a responsive personal portfolio website and implemented reusable Vue.js 3 components using Composition API and Pinia.
- Developed responsive layouts and interactive sections with Tailwind CSS and integrated frontend functionality with Spring Boot services.

Aptitudo — Canadian Recruitment Assessment Platform

Team Lead | Vue.js 3, Composition API, Pinia, Spring Boot, MySQL

- Led frontend development for an online recruitment-testing platform providing customized pre-employment assessments.
- Developed responsive candidate and administrative interfaces, implemented Pinia state management, and integrated REST APIs with Spring Boot.
- Built reusable UI components with a focus on usability and scalable frontend architecture.

Cultural Transformation Systems (CTS) — Canada

Team Lead | Vue.js 3, Composition API, Pinia, Spring Boot

- Led frontend development for a business platform focused on talent acquisition, employee development, organizational culture, and retention.
- Built Vue.js 3 interfaces for career profiles, role architecture, culture/engagement insights, and leadership-oriented workflows.
- Integrated frontend applications with Spring Boot services and developed reusable components for maintainable architecture.

JobDesk — Switzerland

Junior Frontend Developer | Angular, TypeScript, ASP.NET Core, MySQL

- Developed responsive Angular interfaces for a Swiss recruitment and staffing platform.
- Integrated Angular components with REST APIs and backend services supporting recruitment, applicant management, and job-search workflows.
- Contributed reusable TypeScript/Angular components for maintainable and responsive enterprise interfaces.

PUBLICATIONS & THESIS

I H Tusher, M Samad, “Design of a Meander Line Omni-directional Loop Antenna for Biomedical Applications”, in BAUET JOURNAL, vol. 02, iss. 02, pp. 104–116, July 2020.

Thesis: “A Meander Line Omni-directional Loop Antenna Design for Biomedical Application”.
